Fresh oxygen, fresh food and fresh water are three of the most essential parts of human life. With growing rate of population, agricultural needs and industrial development, Wastewater Management has become essential in providing fresh water. Research suggest that globally, only 20% of wastewater produced receive proper treatment.

Navbharat Water Private Limited (NWPL) is part of the Navbharat group.

What started as a dream 35 years ago has now grown into an Organization that has interests across diverse fields such as Shipping, Oil & Gas, Water treatment plants, FMCG & Manufacturing industries. The group provides end-to-end solutions in logistics, water purification, manufacturing, services, consultancy sectors across the world.

Navbharat Water Pvt. Ltd., is in the business of providing wastewater management solutions. We are dedicated towards providing clear drinking water to everyone. We provide our clients with complete end-to-end solutions with an efficient team paired with innovative plants, products and design. We constantly work towards formulating innovative technology and processes that help us provide world class solutions, products and services in wastewater Management.

We have a team of qualified professionals along with efficient in-house manufacturing ability and equipment that makes us a formidable player in the industry. From choosing the right kind of wastewater treatment plan to installation and servicing, we ensure our clients get the most sustainable and cost-effective programme that complies with the government standards. We provide our clients with the best and most cost effective solutions.

## OUR OFFERINGS

### ■ ENGINEERING PROJECT MANAGEMENT

Navbharat Water Pvt. Ltd. offers end to end customised solutions for wastewater management. From domestic to industrial water treatments, we cater to all wastewater management needs. With inbuilt capabilities and resources, we provide our clients with customisable plants that fit their needs and capacity. We help companies and households with technologically strong plants paired with our user friendly and skilled execution team. Our team of experts provides support with supply, installation, commissioning and designing of the plant.

### ■ FILTRATION & SEPARATION TREATMENT

Our filtration and separation processes are designed to meet all your wastewater management needs. From activated carbon filters, softeners to membrane-based solutions (MU, UF, NF, RO), we provide the best solutions for your needs.

### ■ SEWAGE TREATMENT & SLUDGE HANDLING

Be it domestic, commercial or industrial wastewater, we provide the technology & services that removes contaminants and pollutants using physical, biological and chemical processes to provide purified water.

### ■ EFFLUENT TREATMENT

We help our clients in being environmental friendly with Effluent Treatment or also known as ETP which is designed particularly for the purification of industrial wastewater and helps industries reuse the wastewater and release safe water back to the environment.

### ■ REVERSE OSMOSIS

We provide Reverse Osmosis or RO, which is a well known water purification process that helps in lowering total dissolved solid (TDS) content and helps in desalination of water using a permeable membrane making it safe to drink and use.

### ■ PUMPING, WATER DISTRIBUTION & PLANNING

We design various kinds of water pumping skids for our clients which assists them in planning the distribution channels. We assist with designing the suitable capacity water pump that would suit the client's needs.

### ■ ZERO LIQUID DISCHARGE TREATMENT

Reduce, Reuse, Recycle. We help industries in recycling wastewater with Zero Liquid Discharge (ZLD) which is an engineering approach of water treatment where all water is treated and recovered and further the contaminants are reduced to solid waste resulting in 0% wastage.

## ■ CUSTOMIZED SERVICES AND SOLUTIONS

We, at Navbharat Water Private Limited provide our clients with customized services and solutions ranging from:

### ■ OPERATIONS & MAINTENANCE

With a competent and user friendly team of experts along with world class technology, Navbharat Water Pvt. Ltd. offers 24x7 services and solutions for operations and maintenance of the wastewater management plant. We offer regulated control and review mechanisms, periodic safety audits and technical expertise. From setting up a plant to maintaining it with regular checks, we provide our clients with a process based solution that matches their needs and capabilities.

### ■ CONSULTANCY

With the decreasing rate of availability of usable water due to water pollution, climate change and water scarcity, industries, households and government face a huge challenge.

Navbharat Water Pvt. Ltd. offers technical consultancy for sustainable wastewater management practices for large scale industries, commercial buildings, hospitals, IT parks as well as the agricultural sector.

### ■ ANNUAL MAINTENANCE CONTRACT (AMC)

We, at Navbharat Water Pvt. Ltd. offer an Annual Maintenance Contract (AMC) which can be customised on monthly or weekly basis as per customer requirements.

## ■ PRODUCTS AND CONSUMABLES

Navbharat Water Pvt. Ltd. provides the clients with a wide selection of products that aids in wastewater management be it for industries or household complexes. We add value to our services with products such as:

### ■ WATER TREATMENT CHEMICALS

### ■ PREFABRICATED TREATMENT PLANTS

### ■ WASTEWATER TREATMENT PRODUCTS
